

Your marking period grades will be based on two things: completion of assignments and competency quizzes. Completion of assignments determines your base grade. That base grade will be shifted by your performance on competency quizzes:

0 or 1 missing or unfinished assignments: base grade B
2 or 3 missing or unfinished assignments: base grade C
4 or more missing or unfinished assignments: base grade D

Each competency quiz grade will either be a "+" or a "-".
Competency quiz grades: typically "+" means the grade shifts up one letter grade.
Competency quiz grades: typically "-" means the grade shifts down one letter grade.
Competency quiz grades: mixed "+" and "-" means the grade stays where it is.

The summer assignment (all 16 questions together) counts as the first assignment of the first marking period.

There are will also be four quarter finals which will be averaged to determine your final exam grade.

Assignments

- Webassign due 9 pm last day of cycle.
- Lab Reports due next day 6.
- Notes checked before Lecture.

$$\Sigma F = ma$$

$$E_a = E_b$$

Competency Quizzes

- Occur on day 1 of the next cycle.
- May be corrected for mathematical errors.
- May be retaken a limited number of times for physics errors.

$$\tau = r \times p$$

Quarter Final Grading

4 or 5 = A
3 = B
2 = C
1 = D

$$W = F \Delta x$$
