ProTips

Make sure there are no bright lights behind you.

Move side-to-side, not toward or away from the camera
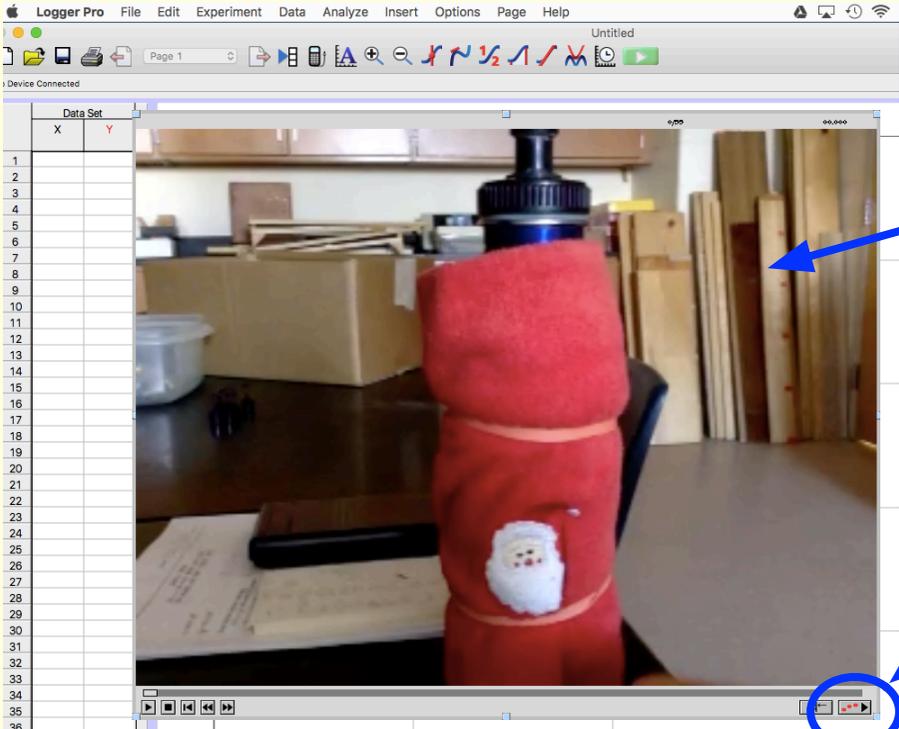

4 Resize the video to be nice and big

5 Click the Dot Tool Bar Button

If your video disappears

It didn't. It's just behind the graph. Resize the graph smaller and you'll see it.
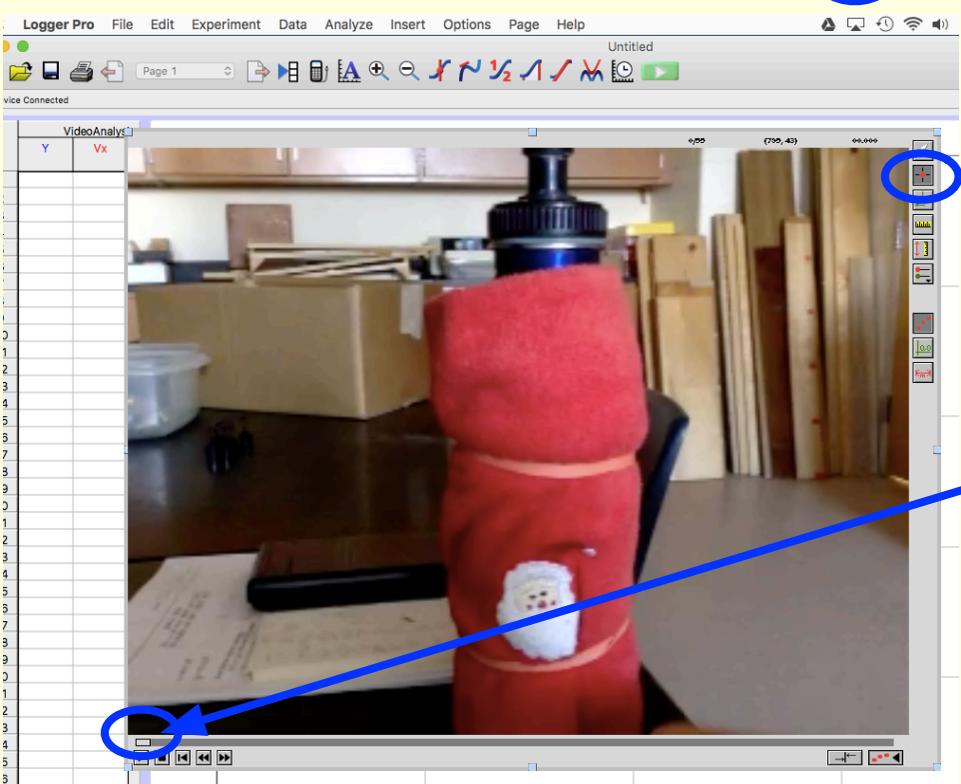

6 Click the Dot Maker.

7 Drag the slider to get the video to just before the action starts.

8 Choose some part of the object to click on. Click on it, and the video will advance automatically. Keep clicking on it!

Don't do a million dots. Just do enough to get the idea of what was happening.

Don't put dots on top of dots; It'll be too hard to read. Just stop there.

If You Mess Up and Want to Start Over
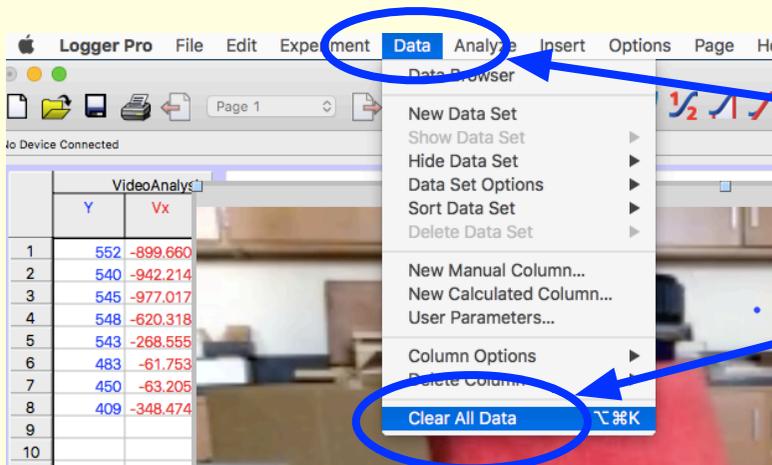

To erase all your dots: Click DATA in the menu. Choose CLEAR ALL DATA.
