

Cycle 10 3rd Law

7 Very Tricky

A correct answer WITH EXPLANATION for either one will get you a Wow.

You are stuck on frictionless ice. No help is coming, and the ice is so hard, you can't dig into it.

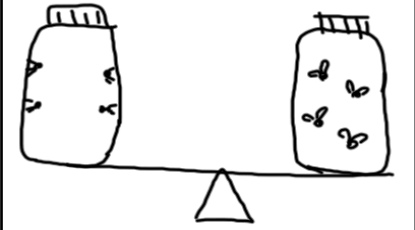

How do you escape ?

Lucky you wore your hat & scarf - it's cold!

Identical jars with 4 identical bees are on a scale. In one jar, they are flying around, in the other they've landed

Which jar weighs more ?
